EXPERIENCE

Jiateng Construction — Project Specialist, Owner-side PM — 2024 — 2026

Construction
- Reconstruction project (22F/B6F SRC): handled **NT$570M** in nominated subcontracts and change orders
- Took part in weekly **site and drawing meetings** and shop-drawing reviews; coordinated trade interfaces and schedule

Design review
- Built an **elevator traffic analysis** using a published journal method; it showed the original 2 cars fell short, and the owner added 2 low-rise cars
- Resolved an **elevator pit vs. generator air duct clash** with an ArchiCAD 3D model, coordinating three parties to avoid delay

Renewal
- Helped advance **3 urban renewal projects** (50/150/75 units) through review and consolidation

Concept — **Urban Renewal Stage Calibration System**

Kickoff — Plan approved — Rights approved — Construction — Completion — Closeout

Drawn from practice at Jiateng: set a kickoff baseline and log planned vs. actual at each stage, keeping the process traceable and cost and schedule aligned.
